Medical Education Training and Experience**Courses:**

- Teach the teacher course- University of Manchester 2006
- Postgraduate Certificate in Medical Education (University of Cardiff)

Lectures/ Tutorials

- Lectures on Child Protection to undergraduate medical students in Year 4 JCU
- Tutorials on Child Protection for Year 5 JCU students rotating through Paediatrics
- Workshop on Physical/Sexual Forensic examination for Community Paediatric Registrars

Clinical Skills teaching:

- Directed bedside and outpatient teaching sessions on clinical examination skills in Paediatrics to undergraduate medical students
- Implemented sessions on Paediatric life support resuscitation skills to undergraduate medical students
- Paediatric Musculoskeletal examination (PGALS) in undergraduate medical students

Simulation:

- Facilitated in simulation scenarios of acutely unwell patients for undergraduate medical students and foundation doctors.
- Simulation trainer Paediatric Advanced Resuscitation Course Mackay Base Hospital

Course organisation:

- Organised schedule and conducted weekly sessions for undergraduate medical students attached to Paediatrics
- Co-ordinated and supervised induction schedule for paediatric trainees starting on the Neonatal unit. Active Member of the Education Committee organising training monthly days for Paediatric trainees in the East Midlands region.
- Redesigned teaching program for Paediatric Registrars to Medical Students attached to Paediatric Department.
- Generated and established a weekly teaching schedule for trainee doctors in Paediatric Intensive care. Organised study days for Paediatric Trainees in the region.

E-learning:

- Adapted use of blackboard and web-ct systems and delivering coursework to undergraduate medical students.
- Built learning packages using moodle software for postgraduate paediatric trainees.
- Formulated Reusable Learning Objectives based on lectures for undergraduate medical students
- Maintained educational website for Paediatric trainees in the East Midlands Region.
- Delivered innovative presentations using Prezi online software.

Project Supervision

- Supervising medical student and junior doctors in undertaking clinical audit.
- Audit was presented in a regional meeting and won second prize.
- Supervised medical students and RMOs to present posters of case reports at RACP congress and international Paediatric Conference

Examinations

- Administered and organised OSCE for Paediatrics in Undergraduate medical students
- Collaborated in the organisation of a study day in preparation towards the clinical MRCPCH exam.
- Examined at JCU 5th year medical students OSCE examination
- Provisional Examiner RACP Paediatric examination local (Townsville Hospital)

Doctor Supervision

- Completed RACP Supervisor Professional Development Program (SPDP)
- Supervisor for Foundation and RMO doctors
- Supervisor for Basic Trainee Registrars

| Research Experience | |
|--|--------------------------|
| Original Research Project (Student) | Feb 2000-Aug 2000 |
| This was a compulsory element of my undergraduate studies. I was instrumental in the design of the study and achieved R&D and ethical committee approval. This was a pilot study to determine the efficacy of using ultrasound to assess bone strength in term and preterm infants. Findings from this study were presented at an international meeting and published in a peer review journal. I have written the first draft for this paper. | |
| Original Research Project (Academic Clinical Fellow) | Feb 2007-Nov 2009 |
| This prestigious post included integrated clinical and academic training in Paediatrics. I was involved in a basic science project on developmental physiology. The study aims were to determine the differential effects of maternal nutrient restricted diet at different gestational periods on the sheep placenta. Methodology used included; immunohistochemistry, image analysis, RNA extraction, real time PCR. Findings from this study were presented at a national meeting and published in two peer reviewed journal. I have written the first draft for one of the papers (1 st author) and was involved in submissions for publication and required revisions. | |
| Clinical Multicenter Trials (General Paediatrics and Rheumatology) | Feb 2010- date |
| As a Registrant and Consultant I have been involved in the recruitment and study of children and young people in a number multicenter trials. Specifically in Paediatric Rheumatology I have been involved in the Biologics / DMARS Registry and JMAR/BSPAR study for patients with JIA and also in studies for JSLE and JDM and Uveitis. Currently Local Principal investigator in a multicenter trial in Townsville, Kawasaki | |
